Profile

I'm Matteo, software engineer based in Milano or everywhere. Enthusiastic about web applications and clear and simple code. In my spare time, I love to go to the mountains.

Experience

Software engineer @ Klarna oct 2020 - today

Working on improving the Klarna's IT inventory, making smoother the dev experience of the company.

I'm expanding my knowledges in backend and infrastructure, mostly on NodeJS, AWS and CI/CD, consolidating frontend skills using React.

In particular I worked on:

- 1) building a developer portal that helps to visualize the inventory in a standard way.
- 2) configuring JupiterOne project for Klarna, collecting AWS assets and other custom entities.

Technologies used: Backstage, React, NodeJS, Jenkins, Docker, JupiterOne, AWS.

Frontend dev @ Qwentis sep 2016 - oct 2020

Working on main projects and clients of the agency. Developed strong background in frontend technologies and methodologies.

In particular I worked on:

- 1) building a retail mobile app for a luxury brand.
- 2) building web components to be reused in different frontend projects.

Technologies used: Typescript, Angular, Web Components, CSS/SCSS

Skills

Javascript

Typescript

Angular & Angularjs

React

Nodejs
